Essential Ways to Use DataPocket

- ◆ Create multiple backup tasks with DataPocket Smart Backup Utility and run regular backups with one simple push of a button (*Windows only*)
- ◆ Bring DataPocket with you to back up important computer contents on your business trips
- ◆ Restore lost files on your computer from your most recent backup
- ◆ Transport and synchronize files between multiple computers and computers running on different operating systems
- ◆ Archive important but infrequently accessed files
- ◆ Carry your personal library of music, pictures, videos, and other data with you to share with friends and family

**Available capacities:
30GB, 40GB, 60GB, 80GB**

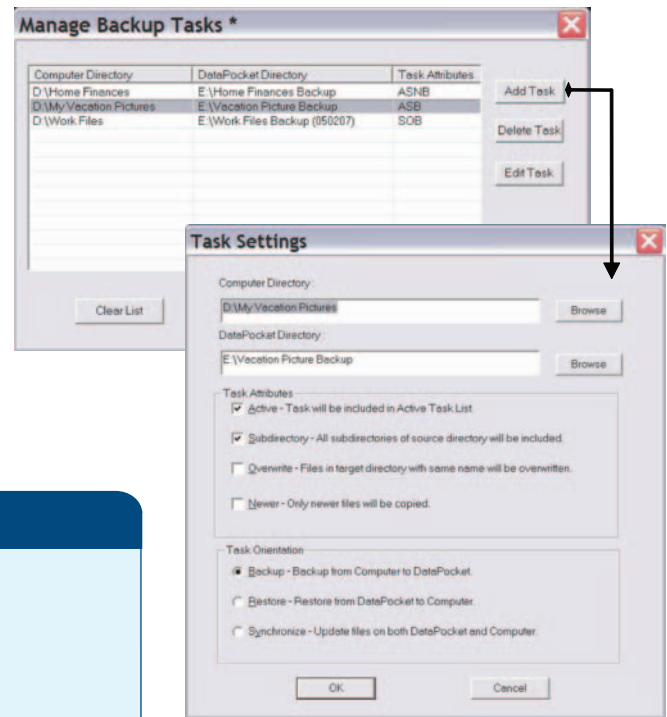

Choose between 2 stylish colors:

- ❖ sky blue (shown above)
- ❖ brushed silver

With DataPocket Smart Backup Utility, you can:

- ◆ **Create multiple, personalized backup tasks** for your specific needs
- ◆ **Run preset backup tasks** with one simple push of the Smart Backup Button
- ◆ **Easily change task orientation** to restore files from DataPocket to your computer or to synchronize files between DataPocket and your computer
- ◆ **Manage active and inactive task lists** to run different backup tasks as the need arises
- ◆ **Save time** by configuring your backup task to copy only the files that have been updated since the last backup
