

Picture Porter Elite Key Competitive Advantages

RAW File Support

- Support for a broad range of RAW files in their native format means no compression or changes made to the original image
- Supports Zoom, Pan, Rotate, Slideshow functions for RAW image content
- Supports EXIF and histogram viewing for RAW image content
- Portrait shots are automatically rotated from EXIF photo orientation data

File Integrity

- Does not alter the original file or file name in anyway when backing up from memory cards

Strong Multimedia Format Support

- **Images** (JPEG, TIFF, GIF BMP, RAW)
- **Video** (MPEG-1, MPEG-4, WMV9, MJPEG)
- **Music** (MP3, WMA, AAC, WAV)
- **Documents** (TXT)

Direct Print Capability

- Print JPEG photos directly to PictBridge® compliant printers via simple USB connection

Broad Memory Card Format Support

- Accepts CF I/II, MD, SD, MMC, Memory Stick, MS Pro cards without adapters

Fast Copy Speed

- Can copy a full 1 GB card in less than 5 minutes

Audio Recording Capability

- Records audio from built-in mic, FM radio tuner, and line-in audio source

Video Recording to MPEG-4 Files

- Records directly from any video source to MPEG-4 files at resolution up to 640x480
- Supports PSP and common cell phone video resolution settings

Data Transfer Capabilities

- Bi-directional data transfer allows direct transfer to and from memory cards
- Functions as an external hard drive and memory card reader when connected to computer

Additional:

- Supports long file name display
- Firmware easily upgradeable
